

To Whom It May Concern:

We purchased a SQA-Gold from MES three years ago. Purchasing the analyzer was one of the best decisions I have made as a lab director. We are now able to run both fresh and post vasectomy sample types in-house. The analyzer is precise, accurate, and easy to use. The SQA-Gold is also a tech time saver, which is priceless for a smaller laboratory. I have found the MES support staff to be both knowledgeable and helpful. I would recommend this analyzer to anyone.

Sincerely

Justin Cox

A handwritten signature in dark ink, appearing to read "Justin Cox". The signature is fluid and cursive, with a long horizontal stroke extending to the left.
